Memory limit:         512 megabytes

JB is the most famous ICPC world finalist. His favorite problem in ICPC world final is a problem which asks him to add some commas in a string.

Now, JB wants to share happiness with adding comma with you, so he asks you to add a comma after each substring “cjb” in a string  $S$  he gives you.

## Input

The only line contains a string  $S$  ( $1 \leq |S| \leq 10^5$ ), contains only lowercase English letters.

## Output

One string, denotes the result after adding commas.

## Examples

standard input	standard output
pbpbppb	pbpbppb
cjbismyson	cjb,ismyson
